

Eduarte Paiva De Oliveira

eduarteoliveira2021@gmail.com | github.com/EduartePaiva | linkedin.com/in/eduar-te-paiva |

Brazil, BA

Skills

Node.JS | Golang | Rest API | AWS | Microservices | Typescript | Javascript | CI/CD | SQL | Docker | Kubernetes | OpenAPI | OAuth2 | Next.JS | React.JS

Profile

Developing since 2022, I've been working with back end and front end. I've built back end solutions using Golang (Fider, SQLC) Node.JS (Express.js, Hono, DrizzleORM, Socket.io), and full stack applications in typescript with (Next.JS, React.JS).

Experience

Freelancer Work | Back End Developer | From December 2022 to the present moment.

- Worked making Rest API backend solutions using Node.JS or Golang.
- I wrote Rest API documentations using OpenAPI, Swagger and wrote Unit Test with tools like vitest and Golang package testify.
- I designed and implemented database solutions with Postgress and Mysql, and built efficient querying solutions, including the migration of an application that was using Firebase to Postgresql. This migration improved code quality and performance of the application.
- I developed efficient Auth solutions using technologies like JWT, and, Integrated at least 10 different OAuth2 providers for authentication flows.
- I worked with serveless solutions using AWS Lambda, S3 Bucket for developing an image gallery solution that can asynchronously process and compress images that will be served by AWS S3.
- I built integrations with AI solutions like openAI and repliacteAI.

City Hall of São Gabriel BA | IT Technician | From february 2021 to july 2023.

In this work it was necessary for me to interact with a big number of civil servant approximately ~500+ people, I was in charge of solving any problem related with computers, printers and networks, and on occasions tutoring people that weren't familiar with softwares that was used there.

I was also responsible for designing and implementing computer networks for new public buildings.

Because of this constant daily problem solving and involvement with people I got a lot better at important soft skills like:

- Problem solving;
- Communication;
- Adaptability;
- Fast learning;
- Taking ownership of work and solving it;

Education and languages

- Graduated in Systems Analysis and Development as a Technologist (2017 to 2021).
- Advanced English.
- Portuguese (Brazil), native language.
